

NOVIK Z111

The niche door has two inward and outward opening doors, with continuous profiles on the wall.

The Novik symmetrical shower cabins have a classic and at the same time modern appearance. The doors have an open handle and usually open outwards. The profiles are polished aluminium and the 6 mm thick glass is fitted with Riho Shield. Novik guarantees a good price/quality ratio. The cabins and walls are easy to install.

Hardened glass with Riho Shield

Parts are reversible

Thickness of the glass is 8 mm

CE approved, according to EN12150-1

The special seal profile position, the glass profile and the glass screen prevent splashing water making its way out.

Door with lift mechanism

Article number	H x W (cm)	A (cm)	Glass (mm)
GZ6090000	200 x 90	86,5 - 89,5	6
GZ6100000	200 x 100	96,5 - 99,5	6
